

## TCI® Sponsors 2011 *Car Craft* Summer Nationals Burnout Contest

Ashland, MS – TCI® is proud to sponsor the popular Burnout Contest at the 2011 *Car Craft* Summer Nationals.

TCI® will once again sponsor the popular Burnout Contest at the 2011 *Car Craft* Summer Nationals, which will be held on July 22-24, 2011, at the Minnesota State Fairgrounds in St. Paul, MN. The Burnout Contest is a two day event in and of itself, drawing a crowd of 20,000 muscle car lovers who fill the grandstands to watch contestants create huge clouds of smoke and lay down thick layers of burnt rubber. In addition to the smoking burnouts and the over 4,000 cars on display at the *Car Craft* Summer Nationals, the COMP Performance Group™ trailer will be on-site with all-new, interactive displays, updated literature and new apparel. Technicians from TCI® and all the other CPG companies will also be on-hand to answer questions and explain the technology behind the products.

It's fitting that TCI® sponsors the Burnout Contest as the drivetrain leader has added yet another product to its line of RollStop® Kits – the Universal Burnout Kit with LED Lights. This kit includes a Rollstop® that allows your front wheels to lock, helping to hold the car in the staging beams and the burnout box. Then it uses ultra-bright LEDs to illuminate the tire smoke from your burnout with pulsing blue lights. The waterproof TCI® RollStop® and Universal Burnout Kits are manufactured from 6061-T6 aluminum for high strength and durability. The precision solenoid valve can withstand up to 3,000 psi of pressure and is designed to draw only one amp of current.

Make sure to check out the Burnout Contest if you'll be attending the *Car Craft* Summer Nationals, and stop by the COMP Performance Group™ booth if you have any questions.

### About TCI®

When TCI® opened its doors in 1968, it was a modest operation dedicated to delivering high performance transmission-related parts to a small group of drag racers. From those humble beginnings in Memphis, TN, TCI® has grown to be one of the largest and most technologically advanced manufacturers of high performance aftermarket drivetrain products. Now located in Ashland, MS, some 45 miles from parent company the COMP Performance Group™, TCI® continues to set trends and expand its line of quality transmission, torque converter and accessory parts. For more information about TCI® and its products, visit us online at [www.tciauto.com](http://www.tciauto.com), or call us at 1.888.776.9824.
