

TCI® StreetFighter® Torque Converter For 2010-2011 Camaros

Ashland, MS – Popular TCI® StreetFighter® Torque Converters are now available for 2010-2011 Chevy Camaros.

The performance and reliability of TCI® StreetFighter® Torque Converters are now available for 2010-2011 Chevy Camaros. Built tough enough to handle more radically prepared street/race applications, furnace-brazed components increase the unit's strength to withstand high horsepower and nitrous applications. The extra-durable, heat-treated splines, sprag races and hub will stand up to harder launches off the line, while the aftermarket billet front and clutch assembly stop the chance of converter clutch slippage under heavy throttle racing requirements. But with its combination of strength and drivability, the StreetFighter® Torque Converter for 2010-2011 Camaros offer excellent performance for street use as well. As with all TCI® torque converters, it also features the TCI® proprietary HDT (Heat Dissipating Technology™) Coating™ which enables cooler temperatures and more efficient drivetrain operation. Each TCI® torque converter is built to exact specifications and is Triple Tested during assembly. Triple Testing includes run-out testing, leak testing and computer balancing so you can be confident that you're getting a quality torque converter capable of handling whatever you throw at it. Manufactured to withstand the rigors of nitrous injection systems and other power adder options, the StreetFighter® Torque Converter is a must whenever horsepower has been increased.

Quick Facts

Product: TCI® StreetFighter® Torque Converter for 2010-2011 Chevy Camaros

Part Number: #242970

Social Media Pitch: Great for radically prepared street/race machines, popular TCI StreetFighter Torque Converters are now available for 2010-2011 Chevy Camaros

About TCI®

When TCI® opened its doors in 1968, it was a modest operation dedicated to delivering high performance transmission-related parts to a small group of drag racers. From those humble beginnings in Memphis, TN, TCI® has grown to be one of the largest and most technologically advanced manufacturers of high performance aftermarket drivetrain products. Now located in Ashland, MS, some 45 miles from parent company the COMP Performance Group™, TCI® continues to set trends and expand its line of quality transmission, torque converter and accessory parts. For more information about TCI® and its products, visit us online at www.tciauto.com, or call us at 1.888.776.9824.
