

COMP Cams® Engine Plug Kit For LS Engines

Memphis, TN – COMP Cams® expands line of Engine Finishing Kits with new Engine Plug Kit For LS Engines.

Many LS engine builders and do-it-yourself performance enthusiasts focus on the major components, such as camshafts and cylinder heads, when building or upgrading an engine. It's easy to overlook the smaller parts until the final stages of the engine build. That's why COMP Cams® developed this Engine Plug Kit. The new COMP Cams® Engine Plug Kit for LS Engines includes all the plugs needed to finish building or upgrading your engine. Made from brass and galvanized steel to resist corrosion, the plugs in this kit will last for years without rusting or becoming stuck in the engine block. Don't wait until the last minute when building your engine – get your Engine Plug Kit for LS Engines today, and have everything you need for your build or upgrade.
