

Chase For The NASCAR Sprint Cup Field Set For A Shot At Title

Memphis, TN – COMP Cams® powered race cars set for the 2011 Chase for the NASCAR Sprint Cup.

A revised points system that places an emphasis on winning has led to one of the most wide open Chase for the NASCAR Sprint Cup fields in the eight year history of the format. After reseeding by season wins to-date, Kyle Busch and Kevin Harvick lead the 12 driver field with four victories each. Meanwhile, four-time champ Jeff Gordon rides a wave of momentum, having just moved into third place on the all-time Sprint Cup win list by virtue of collecting his 85th career victory and third of the year at Atlanta Motor Speedway. In turn, Brad Keselowski is perhaps the hottest driver on the circuit, having raced his way into 11th place in the point standings. Keselowski has picked up three wins in 2011, as well as completed a four-race stretch in August where he finished no worse than 3rd. All eyes though, remain on five-time defending champion Jimmie Johnson, who looks to possibly make even more history this season. Rounding out the field are Carl Edwards, Kurt Busch, Matt Kenseth, Ryan Newman, Tony Stewart, Dale Earnhardt Jr. and Denny Hamlin, who all hope to peak at just the right time to take home the season ending money and hardware. The ten-race Chase kicks off at Chicagoland Speedway on Sunday, September 18th and culminates at Homestead-Miami Speedway in mid-November.

In 2011, COMP Cams® continues its long-standing relationship as the official cam company of NASCAR. With competitors prominently displaying the company's decal on their front fenders, COMP Cams® has become synonymous with the NASCAR Sprint Cup Series, and is an official Automotive Performance Partner of NASCAR-sanctioned racing at all levels throughout North America.
