

Powerhouse® Electric Powered Ring Filer

Memphis, TN – Powerhouse® Products now offers an Electric Powered Ring Filer with integral de-burring wheel.

The Powerhouse® Products Electric Powered Ring Filer puts an end to tedious filing and constant rechecking to get perfectly matched gaps. Featuring a 3" grinding wheel for fast, accurate cuts, simply grind the first ring and then complete the rest with the exact same setup to ensure consistency between all parts. Grind 1 to 8 ring gaps within .001". Switch the motor on and a quick push down on the table cuts a square ring every time. A knurled in-feed adjustment knob offers extra control and a dial indicator means a super accurate cut the first and last time. With a fine adjustment feed screw and capabilities for ring diameters from 2.5" to 5.0", the grinder also includes a de-burring wheel to knock off the sharp edges created when grinding. The powerful, high torque motor won't stall and there is never a need to replace batteries.
