

Tomar™ Kart And MX Bike Clutch Tools

Lake Zurich, IL – Tomar™ carries all the tools and equipment needed to install and rebuild kart and MX bike clutches.

Whether you need to adjust the springs on your clutch to fine tune stall speed or you want to remove the whole unit for a rebuild, Tomar™ carries all the kart and MX clutch tools required to get the job done. The aluminum Spring Adjusting Tool with its blue anodized finish that resists stains and corrosion features locator marks every 90° to ensure precision adjustments to clutch springs. Next, the Clutch Wrenches for Stellar 2, TD22, TD23 and Stellar 4 clutches from Tomar™ are engineered specifically to hold the outside diameter of the irregular shaped clutch so you can tighten the starter nut and secure the clutch to the crankshaft with ease. And finally, Tomar™ Clutch Pullers help avoid accidental damage and costly mistakes when removing the clutch from the crankshaft.
