

## RHS® LS Race Block Accessory Items And Tools

Memphis, TN - RHS® carries accessory items and tools needed to maximize performance with the RHS® LS Race Block.

RHS® carries a variety of items designed for you to get the most out of the new RHS® LS Race Block. RHS® Torque Plates for boring/honing are carefully engineered to precisely mimic the thickness and design of an installed aluminum cylinder head. When assembled with the torque plates, engine block stresses and bore distortion are accurately replicated during the machining process, thus more precise boring and honing is reached for maximum performance. These are a must-have for any serious RHS® LS Race Block engine builder. Next, RHS® precision MLS (Multi-Layer Steel) Head Gaskets are custom made for an exact fit in LS Race Block applications. They are comprised of three layers of hard embossed stainless steel with a high temperature FKM rubber coating and a stainless steel shim layer that features a laser welded stopper layer for the ultimate in combustion sealing. MLS Head Gaskets are perfect for high horsepower, high boost, naturally aspirated and nitrous applications. Finally, RHS® Piston Oilers bolt to the underside of the block, which keeps the pistons lubricated and cool during extreme race use.

### Quick Facts

**Product:** RHS® LS Race Block Accessory Items And Tools  
**Part Number:** #549150 (Torque Plate); #549402-L (4.200" Left MLS Head Gasket); #549402-R (4.200" Right MLS Head Gasket); #549401-L (4.165" Left MLS Head Gasket); #549401-R (4.165" Right MLS Head Gasket); #549120-POL (Piston Oil Squirter)  
**Street Price:** Call For Pricing

**Social Media Pitch:** RHS® carries torque plates, head gaskets and piston oil squirters to maximize performance with the RHS® LS Race Block

#### **Features & Benefits:**

- RHS® carries all the accessory items & tools needed to maximize performance with the RHS® LS Race Block; all parts are specifically engineered to work together for maximized performance
- Accessory pieces include: torque plates, multi-layer steel head gaskets & piston oil squirters
- Perfect for radical street & all-out racing applications

### **About RHS®**

Founded in 1967, Racing Head Service® began exclusively as a manufacturer of racing cylinder heads. Over the years, RHS® grew into an integrated racing company, offering complete turn-key engines and race car parts via mail order. With innovative cylinder head designs and porting techniques, the company became a performance icon in both circle track and drag racing. RHS® is now a proud member of the COMP Performance Group™ with the industry's largest and most advanced airflow technology team that produces both aftermarket cylinder heads and engine blocks.
