

TCI® GM LSA Flexplate For 2012 Camaro ZL1 Automatic Transmission Conversion

Ashland, MS – The TCI® LSA Flexplate for 2012 Chevy Camaro ZL1s retrofitted with automatic transmissions is designed to stand up to all racing conditions.

When retrofitting the 2012 Chevy Camaro ZL1 for racing with an automatic transmission, the TCI® GM LSA Flexplate is a must. Engineered to prevent runout, ring gear bounce and other damaging problems, these flexplates offer unmatched strength and protection. Thicker than factory flexplates, the SFI 29.1 approved TCI® plates are precision ground from ultra-durable A36 steel. They are dynamically balanced for performance and electro-coated for protection against the elements. This is the perfect upgrade for any increased horsepower 2012 Camaro ZL1 that has been converted to an automatic transmission. The flexplate is also a valuable tool for vehicles other than Camaros with LSA engine transplants and automatic transmissions.

About TCI®

When TCI® opened its doors in 1968, it was a modest operation dedicated to delivering high performance transmission-related parts to a small group of drag racers. From those humble beginnings in Memphis, TN, TCI® has grown to be one of the largest and most technologically advanced manufacturers of high performance aftermarket drivetrain products. Now located in Ashland, MS, some 45 miles from parent company the COMP Performance Group™, TCI® continues to set trends and expand its line of quality transmission, torque converter and accessory parts. For more information about TCI® and its products, visit us online at www.tciauto.com, or call us at 1.888.776.9824.
