

TCI® Power Adder Optimized Torque Converters For 2012 Chevy Camaros

Ashland, MS – TCI® Power Adder Optimized Torque Converters have been tailored to the requirements of 2012 Chevy Camaros with power adders.

Designed specifically for the 2012 Chevy Camaro, these torque converters feature furnace brazed components and heat-treated splines, sprag races and hub for increased strength and durability. With a billet front and clutch assembly, they are capable of handling harder launches. Engineered with stall speeds that maximize the performance of power adders, these torque converters are designed to benefit high performance street and race applications. After being finished with a proprietary HDT™ Coating for cooler operating temperatures, all converters are Triple Tested in-house to ensure quality. Triple Testing includes run-out testing, leak testing and computer balancing so you can be confident that you're getting a quality torque converter capable of handling whatever you throw at it. TCI® Power Adder Torque Converters are a must whenever horsepower has been increased.

Quick Facts

About TCI®

When TCI® opened its doors in 1968, it was a modest operation dedicated to delivering high performance transmission-related parts to a small group of drag racers. From those humble beginnings in Memphis, TN, TCI® has grown to be one of the largest and most technologically advanced manufacturers of high performance aftermarket drivetrain products. Now located in Ashland, MS, some 45 miles from parent company the COMP Performance Group™, TCI® continues to set trends and expand its line of quality transmission, torque converter and accessory parts. For more information about TCI® and its products, visit us online at www.tciauto.com, or call us at 1.888.776.9824.
